

College on problems of drug DEPENDENCE
2006 - Scottsdale, Arizona
Scottsdale Princess Hotel
Salons ABC

**THE NIH ROADMAP AND THE
NEUROSCIENCE BLUEPRINT**

Monday June 19, 2006
8:00 am – 10:00 am

Timothy P. Condon, Ph.D., Chair

Nora D. Volkow, M.D.
Director, NIDA

The NIH Roadmap and Neuroscience Blueprint

Glen Hanson, Ph.D., D.D.S. **The Molecular Library Roadmap Initiative: An Overview**
Special Advisor to NIDA Director

David Weaver, Ph.D.
HTS Center, Vanderbilt

Capitalizing on High Throughput Screening

Tudor Oprea, M.D., Ph.D.
University of New Mexico

Chem-informatics and PubChem

Dietrich Stephan, Ph.D.
Translational Genomics
Research Institute (TGen)

**Overview the NIH Neuroscience Blueprint
Microarray Facility**

The NIH Roadmap and the Neuroscience Blueprint are NIH-wide initiatives aimed at accelerating biomedical and neurological discoveries from the bench to the bedside and into the community. This forum will provide an overview of the NIH Roadmap and the Neuroscience Blueprint, a description of NIDA's role and contribution to both initiatives, and provide information on current research opportunities that are important to drug abuse and addiction scientists working in the field of molecular libraries, high throughput screening and high-risk research.
